Presents

Positive Images

(For girls and about girls)

Mission Statement:

To promote greater awareness and self-confidence in today's competitive world, by sharpening personal skills that put a girl in control of their personal and social situation.

Purpose:

The **POSITIVE IMAGES** workshops are designed to educate girls ages 11 to 17, about their confidence, self-esteem, and skills needed to achieve success on a personal and career level. The **POSITIVE IMAGES** workshops will promote awareness of growth and development issues and assist the girls in developing healthful attitudes that will help them cope with the changes that occur during puberty.

Objectives:

At the end of these workshops participants will:

- Learn how to honor and care for their bodies
- Learn and Practice dining Etiquette skills
- Be able to evaluate a healthy relationship vs. a unhealthy relationship
- Understand the effects of early motherhood
- Know what HIV/AIDS does to their life
- Identify pressures and alternatives to early sexual behavior
- Establish resume and job hunting skills
- Sharpen personal skills to put you in control of any social situation.
- Effectively challenge and promote positivism in the girls lives

JUST THE FACTS

What will we be doing in the workshops?

Participants in **Positive Images** are middle and high school girls' ages 11 through 17 years old that meet together once a week. **The POSITIVE IMAGES** workshops involve girls with diverse learning styles, strengths and backgrounds.

The goal of the **Positive Images** workshops is to provide a safe place for the girls to discuss their concerns and goals, and to work with each other and an adult mentor on problem solving. In order to help the girls navigate friendships during adolescence, they need to be encouraged to talk.

The girls will be constantly interacting with each other, writing their thoughts, reflecting on their lives and discussing their futures. Always taking it to another level.

The Curriculum

The curriculum for the Positive Images program is composed of several workbooks contained in the "In My House" series. This curriculum was designed to give young people information, confidence and the skills necessary to make positive changes and choices in their life. The young ladies are required to work on several pages in the workbook for at least an hour during each session. Instructors are challenged to incorporate the issues discussed within the workbooks with other scheduled activities and discussions.

What should she bring?

She should bring herself and an (OPEN MIND)

Is there a dress code?

The environment of our workshops is very casual. The girls should be properly dressed. Jeans are permitted.

Financial Commitment

Everything for the participants is **FREE**

Do I have to participate in all workshops?

Yes, all participants are required to attend all sessions.

What are the reasons for Journals?

On our computer, in our notebooks we all use writing as another form of communication. We use it to record what is happening, to understand what is happening and to ultimately change. Studies have shown that journalizing is writing your ideas and solutions. Journalizing is a remarkable device for easing worry, for identifying hopes and fears, and for allowing your creative self to expand.
