

W.O.L Kid's News

Welcome to Volume 1

Hello and Welcome!

We would like to thank you for taking out time to read our first Newsletter. The kids have been working very hard and having a lot of fun in creating this final product. This may not be the newsletter that you are used to. They have used every creative bone in your body to make you informed and even to make you laugh.

I was fortunate enough to work with the best staff. This included my writer and editor Karlan Brown, my writers and photographers Erren Mattox, Quiarra Brown, Charde, Zahmir Myers, and Kevin St. Fleur. I have also worked with a few other kids who I will just give a special thank you to. They have worked very diligently for weeks. They have chosen topics and even went through the entire writing process from brainstorming to editing and

even publishing. Their hard work has definitely paid off. They have a product that both adults and peers should be proud of.

Please feel free to contact us. We have provided our telephone number and email address on the back. In addition, we have provided a space for your comments. Your comments are very important to us, so please feel free to write us. Once again thank you and please enjoy our first edition of W.O.L Kid's News...For the kid and the kid at heart. Sincerely,
Stephanie J. Elpenord

About the Computer Club

The Computer Club is one of the excellent programs that P.A.L has allowed children to take part in. The West Oak Lane Computer Club is Coordinated by Ms. Dana Gordon and instructed by Ms. Stephanie Elpenord.

We are currently in Phase III of the computer program. Thanks to funding consistently provided by Comcast. This club allows students to first learn about safety and parts of a computer and they later

learn how to create databases, PowerPoint presentations and to utilize the internet the internet not only for fun, but also as an educational tool. Our motto is "Where learning the computer is just a key stroke away."
